Focus on Connected Speech

Weak Forms - Complete the Table

Notes:

- The weak forms of many function words are commonly used in spoken English instead of strong forms (in Standard Pronunciation, dialects, and accents).
- All words that have weak forms usually act as function words. ٠
- All words that have weak forms have only one syllable they are monosyllabic (apart from "any").
- If we use strong forms when we should use weak, we sound overly formal and it's harder for people to . understand us, because the sentence stress is incorrect (see p.12.1). Communication is reduced.
- If a function word comes at the end of a sentence we usually use its strong form, e.g. "What are you looking for?" /fo:/ or, "Who are you writing to?" /tu:/
- If we want to show emphasis or contrast, we can vary intonation by using strong forms where we would . normally use weak forms, e.g. "Where've you been all day?" /bi:n/
