#### Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case eight different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all of the sentence block extensions from this unit. Hopefully, the answers given above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the third starting sentence from this unit:

Last year I bought some duty-free sunglasses from a little shop at the airport in Minsk.

# Talk a Lot

## Airport

### Sentence Blocks

On the handout the wh- question word that is given is "What", but this starting sentence also works equally well with seven other wh- question words and phrases: "What", "What kind" (x2), "Where", "When", "Who", and "Which":

**What** did you do in a little shop at the airport in Minsk last year? / I bought some duty-free sunglasses.

**What kind** of sunglasses did you buy from a little shop at the airport in Minsk last year? / Some duty-free sunglasses.

**What kind** of shop at the airport in Minsk did you buy some duty-free sunglasses from last year? / A little shop.

**Where** did you buy some duty-free sunglasses last year? / From a little shop at the airport in Minsk.

**When** did you buy some duty-free sunglasses from a little shop at the airport in Minsk? / Last year.

**Who** bought some duty-free sunglasses from a little shop at the airport in Minsk? / I did.

**Which** shop did you buy some duty-free sunglasses from last year? / A little shop at the airport in Minsk.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to students:

2.	what what class		when	who		which	how

#### Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the "sound spine" of the sentence. To improve communication, try to get the sound spine right.
