Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case eight different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all of the sentence block extensions from this unit. Hopefully, the answers given above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the third starting sentence from this unit:

Talk a Lot

Internet

Sentence Blocks

Gill emailed her parents some holiday photos yesterday.

On the handout the wh- question word that is given is "What", but this starting sentence also works equally well with seven other wh- question words and phrases: "What" (2nd), "What kind", "When", "Who" (x2), "Which", and "How many":

What did Gill do yesterday? / She emailed her parents some holiday photos.

What kind of photos did Gill email her parents yesterday? / Some holiday photos.

When did Gill email her parents some holiday photos? / Yesterday.

Who emailed her parents some holiday photos yesterday? / Gill did.

Who did Gill email some holiday photos yesterday? / Her parents.

Which photos did Gill email her parents yesterday? / Some holiday photos.

How many holiday photos did Gill email her parents yesterday? / Some holiday photos.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to students:

3.	what (2 nd) what kind		when	who (x2)		which	how many

The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the "sound spine" of the sentence. To improve communication, try to get the sound spine right.
