"Who would you look for first? Why?" Answers will vary. When they have completed filling the gaps, students should discuss which passenger they would look for first. They should produce appropriate reasons for their choices – why they would choose one person rather than another. For example: "I would look for Rosie Cooper first, because she's only fourteen and hasn't flown before..." Or... "I would look for Mr. P. MacNaulty first, because the check-in for his flight closes the soonest..." [etc.]

Examples

What time does Passenger #1's flight depart?

It departs at five to eight [or seven fifty five].

Which airline is Passenger #2 flying with?

Scot Air.

Who is Passenger #3 travelling with?

She's travelling with a colleague.

Why is Passenger #4 travelling?

He is travelling for his honeymoon.

[etc.]

Extension 1: you could try to encourage some comparative/superlative questions and sentences too, for example:

Who is the oldest passenger?

Lord Morgan is...

Whose flight departs the soonest?

Mr. P. MacNaulty's flight...

Which passenger is travelling the furthest?

Claudia Estobar is...

[etc.]

Extension 2: you could get students to develop short role plays where the worried parent, brother, colleague, or bride of each missing passenger comes to your customer service desk, and asks for help in finding their missing person. The role play could also work the other way around, with the missing person coming to your desk to report *themselves* missing. Students working in pairs could ask for and receive all of the information on the information exchange page and put it in the form of a dialogue – and then decide how each situation works out. Is Mr. P. MacNaulty reunited with his brother? Why has Lord Morgan disappeared? Does Rosie Cooper meet up with her parents before the flight departs? Will Claudia Estobar catch her flight on time?

[etc.]
